

Nadiranga Lakruwan

PROFESSIONAL SUMMARY

Master's student in Data Science with a strong background in software engineering and full-stack development. Skilled in Python, R, SQL, and machine learning, with hands-on experience in building data-driven applications, predictive models, and interactive dashboards. Passionate about AI, analytics, and business intelligence, with proven ability to design innovative digital solutions and collaborate across multicultural environments.

PERSONAL DATA

- **Date Of Birth**
21 / 05 / 1997
- **Phone**
+46 76-748 46 51
- **Email**
nadirangalakruwan22@gmail.com
- **Address**
Kornstigen 15C LGH 1116 Borlänge
78452 Dalarna Sweden
- **Linkdin**
www.linkedin.com/in/nadiranga-lakruwan-78a3841a4
- **Github**
<https://github.com/Nadiranga>

LANGUAGE

- English (Fluent)
- Swedish (Learning)

EDUCATION

- **2025 - 2027**
Master of Data Science (Ongoing)
Dalarna University, Sweden
- **2021 - 2023**
Bachelor of Science(Hons) Computing
Coventry University, UK
Graduated with Upper Second Class
- **2019 - 2020**
Higher National Diploma in Software Engineering
NIBM, Sri Lanka
- **2018 - 2019**
Diploma in Computer System Design
NIBM, Sri Lanka
- **2017**
GCE(Advanced Level) Examination
- **2014**
Computer Applications Training - Intermediate Level
- **2013**
GCE(Ordinary Level) Examination

PERSONAL ATTRIBUTES

- Strong analytical and problem-solving skills
- Mature, responsible, and dependable
- Performs well under pressure; consistently delivers high-quality results
- Excellent communication and collaborative abilities
- Resilient and adaptable to diverse and changing environments
- Effective in time management and organization
- Experienced in customer service and client relationship management
- Technologically curious with a holistic, customer-focused mindset

TECHNICAL SKILLS

- **Programming & Data Science:**
Python, R, Java, C#, C++, SQL, Data Mining, Machine Learning, Statistical Modeling
- **Data Analysis & Visualization:**
Power BI, Data Visualization (Matplotlib, Seaborn, ggplot2), Pandas, NumPy
- **Web & Mobile Development**
React (MERN Stack), Node.js, Spring Boot, Android (Java/Kotlin), Flutter
- **Database Management:**
MySQL, MongoDB, SQLite, SQL Server
- **Cloud & API Development:**
Firebase, RESTful APIs
- **UI/UX Design:**
Figma, Adobe XD
- **IDEs & Development Tools:**
Visual Studio, VS Code, NetBeans, IntelliJ IDEA, Android Studio, Xcode, Jupyter Notebook, RStudio, Git & GitHub
- **Operating Systems:**
Windows, macOS, Linux, Android

PROFESSIONAL EXPERIENCE

Software Engineer (Freelance)

- Developed an E-Commerce Application for a restaurant in Dubai, integrating secure payment systems and a user-friendly interface.
- Designed a Smart IoT System for agriculture, enabling automated monitoring and control of environmental conditions.
- Created a Mobile Application for RNK Construction Pvt Ltd, streamlining project management and internal communications.
- Smart Appointment Booking System - A full-stack web app (MERN + Firebase Auth) for booking appointments with service providers (doctors, salons, etc.), featuring real-time availability, email notifications, and admin dashboards.
- E-Commerce Web Platform - Built a scalable e-commerce site using React, Node.js, MongoDB, and Stripe API. Features include product search, shopping cart, order tracking, and user login/authentication.
- Student Attendance App (Android Studio) - Built a student-teacher attendance system with QR code check-in, role-based access, and SQLite + Firebase for storage.

Android Mobile Developer - eBEYONDS Private Limited, Colombo, Sri Lanka - 2021

- Food Delivery App Clone - A mobile clone of apps using Android Studio. Includes order tracking, restaurant menus, user login, and Google Maps API for delivery tracking.
- Student Attendance App (Android Studio) - Built a student-teacher attendance system with QR code check-in, role-based access, and SQLite + Firebase for storage.
- Habit Tracker App (Android + Flutter) - A productivity mobile app that helps users build habits with streaks, reminders, and motivational quotes. Includes Firebase backend and analytics.

Associate Software Engineer - Mobios Private Limited, Colombo, Sri Lanka - 2020

- Worked on Medica - Digital Healthcare Solution, a cloud-based platform for doctors and patients.
- Contributed to the UI design of the TV channel's SMS raffle draw system.
- Assisted in database development and API integration for healthcare applications.
- Gained experience in full-stack development using Java, React, MERN and MySQL.

PROJECTS (SELECTED)

AdventureWorks Data Warehouse & Power BI Project

- This project implements a full Business Intelligence pipeline using: SQL Server, SSIS (ETL), SSAS Tabular, Power BI Based on AdventureWorks2014 database.

Customer Segmentation for Strategic Marketing – Data Mining & Clustering

- Performed RFM analysis and applied K-Means, Hierarchical, and DBSCAN clustering to segment customers for targeted marketing strategies.

Predictive Analysis on Titanic Dataset – Supervised Learning

- Implemented Decision Tree and Random Forest classifiers to predict survival outcomes; evaluated model performance with cross-validation.

Text Mining on Star Wars Scripts – NLP & Sentiment Analysis

- Conducted text preprocessing, sentiment analysis, and topic modeling on movie scripts to extract character patterns and thematic trends.

CSR Reports Image Analysis – Computer Vision & R

- Analyzed corporate sustainability reports to identify dominant objects/images and studied correlation with company performance.
